Version 2

WESTCOAST

Now in their fourth year of touring, Westcoast celebrates the music of The Beach Boys.

Five guys and their love of fast cars, great music and, of course, California girls!

Westcoast is more than just a concert; not a tribute show or a book musical, but a fun extravaganza of hit tunes most of which we all know and love performed completely live.

The show features over thirty songs, presented by a cast of talented actors and singers with their own band of West End musicians. The presentation is slick (*originally staged by Carole Todd**) and includes outstanding moments of humour and warmth. The chemistry between the amazing cast draws the audience in to their performance.

With spine-tinglingly good harmonies and lots of fun this is a real feel-good show.

With the Beach Boys music still amongst the most popular tracks played on MOR radio there is undoubtedly a public demand for a show featuring their numerous hits.
